Dee DeLorenzo
214 E. Main Street
Mechanicsburg, PA 17055

**IMPORTANT INFORMATION FOR MEMBERS
TAKING THE MARY NEWBY PAINT-IN**

Students are responsible for providing their own surface. Mary used the Roc Lon Room darkening or blackout fabric. It is white on one side and slightly off white on the reverse side. It can be purchased from JoAnn Fabrics in the Drapery Fabric Department. Surface size is 13 ½ " wide X 24 to 25" (depending on the size of dowel) Roc Lon fabric. If the students plan to hem the banner they will need to add the hem allowance. Mary hasn't hemmed hers—it's not supposed to ravel. She says it is wonderful fabric and very easy to paint on. There is no priming of the surface like we need to do with canvas. It's gentle on the brushes too. She used her fabric brushes for some of the painting. Watch for coupons from JoAnn's fliers — you may be able to get it at a better price. If the student prefers canvas that is ok.

For those of you with a computer, Hilary Felinski found a really neat wire hanger with a star for the banner for \$9.99. To see the information on the hanger, go to: http://www.artistsclub.com/tools/tools_display.cfm?id=70175 It is 26.75 inches wide by 10.5 inches high. It holds banners up to 24 inches. Our "Colonial Welcome" is about 14 inches wide.

Because the paint companies are cutting back on supplying paint to chapters, each student is to provide their own paint. The colors used are DecoArt Americana Acrylics:

Antique Maroon
Cocoa (you may use Sable Brown)
Desert Sand
Golden Straw
Hauser Dark Green
Hauser Light Green

Hauser Medium Green
Heritage Brick
Lamp Black
Milk Chocolate
Naphthol Crimson
Titanium White
